ABOUT ME

I am a third-year Industrial Engineering student at Hacettepe University, actively involved in the HENDS student club, where I've strengthened my skills in communication, event planning, and public speaking. My experience in sales has further enhanced my marketing and sales capabilities. I am passionate, ambitious, proactive, and eager to continuously learn and develop new skills.

EXPERIENCE

INTERNSHIP

TUSAŞ (Turkish Aerospace Industries Inc.) - 2025-Present

Actively participating in the SKY Experience Candidate Engineering Program.

GEMAK Food Industry Machines and Trade Inc. - 2025

Completed a 20-day summer internship in the Production Planning and Material Management department, where I gained hands-on experience observing production processes on-site, performing cost calculations, and utilizing ERP systems for material tracking, and developed a strong understanding of production workflows and inventory control.

PARTICIPANT

McKinsey & Company - Forward Program - Remote - 2025

MARKETING SPECIALIST

MISCET - Remote - 2023-2024

Miscet is a NFT based ticketing platform, found in YTU Teknopark.

I worked in the sales department at a startup, where my primary responsibility involved reaching out to student clubs to introduce our platform and onboard them. Over one year, I individually contacted more than 600 student communities. This role enhanced my communication and relationship-building.

SOCIAL EVENT COORDINATOR, BOARD MEMBER

Hacettepe Industry and System Society (HENDS)- Ankara - 2022-2024

I organized technical visits to NETELSAN, TUSAŞ (Turkish Aerospace Industries), Mercedes, and BOTAŞ, gaining firsthand insights into their operational environments.

I organized the "Cross The Borders" event, enabling participants to listen to inspiring experiences shared by travelers.
